

CLEARED EXPERTISE. INNOVATIVE SOLUTIONS. REAL-WORLD IMPACT.

Acquired Data Solutions, Inc. (ADS) is a certified small business with 30 years of experience delivering test and evaluation, systems engineering, AI-drive automation, and cybersecurity solutions to federal and commercial clients.

CORE CAPABILITIES

-  **TEST, EVALUATION & VERIFICATION**
T&E, operating testing, data acquisition, program management support, and test planning
-  **SYSTEMS ENGINEERING & INTEGRATION**
Systems engineering, application development, model-based systems, software development and system integration
-  **AI, AUTOMATION & COMPUTER VISION**
AI/ML, generative AI, computer vision, robotics process automation, and data analytics
-  **CYBERSECURITY & SECURE ENGINEERING**
Cybersecurity engineering, security software & testing, risk management, CMMC readiness, and secure system lifecycle support

SOLUTIONS

- ✓ PC-Based XY Plotter (**XY Plotter**)
- ✓ Deep Learning Computer Vision (**Transform-CV**)
- ✓ LLM Document Engine (**Maintenance Advisor**)
- ✓ Risk Assessment Tool (**Blade RiskManager**)
- ✓ CMMC Readiness Tool (**Blade Validate**)

NAICS CODES

334519, 541519, 541614, 541690, 541715, 541990, 927110, 334515, 541330, 541380, 541511, 541512, 541611, 541612, 611699, 334111

GSA SINs

541330ENG - Engineering Services
541380 - Testing Laboratory Services
541420 - Engineering System Design & Integration
541715 - Engineering Research & Development & Strategic Planning
54151S - Information Technology Professional Services
541611 - Management & Financial Consulting
OLM - Order Level Materials

FEATURED PAST PERFORMANCE

Test & Evaluation, logistics and program management for Airport Security Equipment.

Functional & Operational Test for Real-time Simulation.

Implementation of RMF, ATO, and Cloud Migration.

LabVIEW modernization with REST, APIs, Hooks, and Slack integration and debugged legacy systems.
